

Initial build notes

Creative Director: Terry Rim

Designer/Developer: Abby Kirchmeier

Overall

- Looking good, has consistent style

Footer

- Blue hyperlinked source at the footer is not so visible against blue footer background color (but this is not styled yet, so it's okay!)

Fashion/Tricks/Media

- Removing the margin of the images so that it sticks to the edge of the site will make the page look more organized
- Line height of body text feels a little bit narrow - increasing line height by 1-2 pt?
- More emphasis could be put on the subheadings of each paragraph - by increasing the font size and making them bold

Home

- Home button was meant to be an image of a skateboard, not an illustration. Could be replaced into a background(less)/png image!
